### Series 1140

#### Professional Use

With low-emission, fuel-efficient engine technology, the STIHL MS 362 professional chain saw is engineered to save you time and money. Use up to 20% less fuel compared to previous models, and with the new pre-separation air filtration system, you'll have fewer filter changes and longer run times. The advanced anti-vibration system allows you to keep working comfortably for longer periods of use during most applications, including logging, thinning, arborwork and large woodcutting jobs. All this, plus 70 percent lower emissions compared to previous models, makes the MS 362 an ideal choice for professionals and serious users.

As part of a new platform design concept, the MS 362 allows for quicker, more streamlined serviceability from your local STIHL Dealer.

#### Standard Features

- Advanced engine technology (Low fuel consumption and reduced emissions/ more power)
- Pre-separation air filtration system
- Advanced anti-vibration system
- Toolless fuel and oil caps with retainers
- Side-access chain tensioner
- Decompression valve
- [Click to view the standard features that are common to many STIHL chain saws](#)

#### Specifications

DISPLACEMENT	59.0 cc (3.6 cu. in.)
ENGINE POWER	3.4 kW (4.6 bhp)
WEIGHT (powerhead only) Flush-Cut	5.9 kg (13.0 lbs.)
FUEL CAPACITY	600 cc (20.3 oz.)
CHAIN OIL CAPACITY	325 cc (11.0 oz.)
OILOMATIC® CHAIN	3/8" RS3
RECOMMENDED RANGE OF GUIDE BAR LENGTHS	40 to 63 cm (16" to 25")
STIHL recommends #3624 (33 RS3 72) OILOMATIC® saw chain and 20" 3003 008 8921 STIHL ROLLOMATIC® Ematic™ guide bar combination. The actual listed guide bar length can vary from the effective cutting length depending upon which power head it is installed.	

#### IMPORTANT INFORMATION

**WARNING!** The occurrence called "kickback" can cause serious or fatal injury. Always read the instruction manual carefully before using your saw. STIHL uses a green and yellow color-coding system to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standard B175.1 (gasoline-powered saws) and §30 of UL 1662/ ANSI Standard B175.1 (electric chain saws). Ask your STIHL dealer about safe operating procedures and the advantages of the STIHL Quickstop® chain brake, STIHL Quickstop® Plus additional chain braking feature (Q), STIHL reduced kickback bars and STIHL low-kickback saw chains.

STIHL recommends the use of green reduced kickback bars and green low kickback chains on all STIHL chain saws.

**Note:** STIHL recommends use of fuel with no more than 10% Ethanol content. Using fuel with greater than 10% Ethanol content may cause damage to your equipment and may void your STIHL warranty. [Learn More...](#)

\* The actual listed guide bar length can vary from the effective cutting length depending upon which power head it is installed.

**WARNING!** Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

**STIHL products sold through U.S. STIHL dealers are for distribution in the United States only.**
