

# Heavy Duty TRASH HOPPERS

Designed for "extendable reach" forklifts

**NEW**  
5 cuyd Hopper  
Now Available

## Makes Cleanup Simple as . . .

1. Forklift places hoppers where they are needed – on the floor, elevated deck, or roof.
2. Workmen load them up as work progresses.
3. When the hopper is full, the forklift picks it up and carries it to the disposal area to dump – **simple and convenient!**

## Ideal for . . .

- General jobsite trash handling.
- Drop from masonry saw brick & block cutting.
- Rehab Projects.
- Re-roofing Jobs.
- Even as an elevating platform for material and equipment.

## Easy-To-Load Design

Front completely open for unrestricted access. Material can be . . .

- Wheeled in with wheelbarrows.
- Dumped from power buggies.
- Loaded by compact loaders.
- Thrown in by hand.

## Rugged All Steel Construction

- Durable 3/16" plate steel for shell and sides.
- Full length fork channels add strength to bottom and assure the correct forklift pick-up points.
- Edges and corners are heavily reinforced for greater strength and rigidity.

## Universal Fit

- Fits most all forklifts - slip on forks design
- Fork Pockets accept forks up to: 2 3/4" thick x 7" wide x 60" long
- Attaches fast and easy to forklift with simple pin locking system.

## Cleaner and Safer

- Eliminates dust and airborne material associated with chutes and slides.
- Eliminates dangers associated with trash being dumped directly from elevated decks.

Model	Size	Volume	Maximum Load Cap.	Empty Weight
1420	5' w x 3' h x 5' d	2.7 cuyd	5,000 lbs.	740 lbs.
1425	5' w x 4' h x 5' d	3.7 cuyd	5,000 lbs.	840 lbs.
1430	7' w x 4' h x 5' d	5.0 cuyd	5,000 lbs.	985 lbs.
